LSBF

Pixel Pitch	1.25 / 1.56 / 1.88 / 2.50 mm
Brightness	600 nit
Weight per Cabinet	23 kg
Service Access	Front
IP Rating Front / Rear	IP50 / IP50

Brightness

With a great brightness of 600 nits, it clearly delivers content and attracts public attention, making it ideal for achieving bright indoor visibility.

54" & 27" Combination Installation Available

The LSBF (54") and LSBE (27") models, sharing the same product platform, provide flexible matrix combinations for various spatial configurations. The compatibility between the 54" and 27" models enables versatile sizing options according to space requirements, allowing for installation.

Durable Frame Design

LSBF incorporates an aluminum cabinet that enhances durability, and its high-strength frame, surpassing that of plastic, allows for stable operation.

Improved Flatness and Easy Maintenance

LSBF is composed of eight LSBE modules that form one cabinet with two modules each, allowing it to create a seamless screen. Also, it allows for easy maintenance.

Easy Replacement and Undemanding Maintenance

Upgrade your existing 54-inch LCD video wall to the latest technology and LED display without having to secure additional space.

- * The product can be installed using VESA wall-mount (600×400) and screws.
- * The VESA wall-mount or any other wall-mounts are sold separately.

More Secure Maintenance with the Use of Safety Wire

When removing a module from the cabinets, the safety wire helps secure maintenance by preventing screen and module drops.

Flame Spread Protection

LSBF is compliant with the standard for assessing flame spread, receiving a Class C rating according to the EN 13501-1:2018 test. With its fire resistance, LSBF contributes to the safety of your space.

- * The test was conducted by SGS-CSTC Standards Technical Services (Shanghai) Co., LTD on Aug. 21 to 24, 2023, in accordance with the EN 13501-1:2018 standard. The LED module with product number (LSBF XX-XXX) was used as the test subject. The test results confirmed its compliance with the EN 13501-1:2018 Class C-s2,d0 rating.

Compatibility with LG Software Solutions

When connected with LG's CVBA system controller, the LSBF series is compatible with LG software solutions including SuperSign CMS, LED Assistant, and ConnectedCare, which help customers operate their own business properly.

- * The availability of the 'LG ConnectedCare' service differs by region, and it needs to be purchased separately. So please contact the LG sales representative in your region for more details.
- * The items that can be monitored by LG ConnectedCare : Main Board (Temp., Signal Status, FPGA Ver, Ethernet Connection Status), Receiving Card (Temp., LED Power)
- * Actual GUI may vary in different webOS versions.
- * LG Software solutions needs to be purchased separately.
